1. Project Overview

Sound Planning AV will provide and install a tailor-made audio-visual system designed to support high-quality Zoom video conferencing, presentations, and event audio in the designated meeting space.

The system will integrate a professional PTZ camera, ceiling array microphone, wireless handheld microphones, compact column loudspeakers, and a digital mixer — all managed through simple “Bring Your Own Laptop” connectivity.

The Sennheiser ceiling microphone will capture voices in the room specifically for transmission to remote participants during video calls.

The two Sennheiser wireless handheld microphone systems will serve dual purposes — enabling remote participants to hear clearly and providing local in-room sound reinforcement for presentations, announcements, and events beyond video conferencing.

2. Scope of Work

A. Equipment Supply

Sound Planning AV will furnish the following equipment:

Video System

(1) Marshall CV612-TWI – 12x AI Auto Track and Framing PTZ Camera with wall mount (CM-10)

(1) HDMI 1 4 Distribution Amplifier with supporting HDMI cabling:

(4) 50 ft Professional HDMI Cables

(3) 6 ft 4K High Speed HDMI Cables

(1) 50 ft Active USB Cable and (1) 20 ft Active USB 3.0 Cable for camera and BYOD connectivity

(4) 65" Samsung BED-H Series 4K Business Pro Displays with full motion wall mounts

Audio System

(1) Sennheiser TeamConnect Medium Ceiling Tile Mic Array (TCCM CT-W 2FT) with adaptive beamforming

(2) Sennheiser EW-D 835-S Digital Wireless Handheld Microphone Systems (each system includes one handheld microphone and one receiver)

(2) JBL CBT-100LA 16-element compact column line array loudspeakers

(1) Crown XLS 1002 two-channel amplifier (350 W @ 4)

(1) Soundcraft Ui24R 24-channel digital automatic mixer

(2) On-Stage DS7200B desktop mic stands and (2) MS721B round base mic stands

TERMS: 50% Upon Acceptance, 50% Upon Completion

FL Contractor Lic #ES 120000292 NV Contractor Lic # 0083009 CA Contractor Lic # 1045630

(4) 3' XLR microphone/patch cables
 Infrastructure & Support
 (100 ft) CAT6e network cable for data/AV connectivity
 (100 ft) 16/2 speaker cable
 (50 ft) 22/2 shielded cable
 (1) Furman M-8Lx Power Conditioner
 (1) AVARRO RK-ERW12U 12U wall-mount equipment rack (assembled)

B. Installation

Mount and install all displays, loudspeakers, microphones, PTZ camera, and rack-mounted equipment

Pull and terminate all necessary cables (signal, control, power)

Integrate all devices into the Soundcraft Ui24R digital mixer for audio processing and routing

Configure video routing via HDMI distribution amplifier

C. Programming

Create custom mixer scenes for:

Zoom video conferencing
 Presentation mode
 Party/entertainment mode

Program PTZ camera presets for different meeting layouts

Configure Sennheiser TeamConnect beamforming for optimal speech pickup

D. User Workflow

To Start a Meeting:

Turn on displays using the remote controls
 Connect your laptop to the system using the single USB cable provided
 Launch Zoom (or other conferencing software) and start the meeting

3. Deliverables

Fully installed and tested AV system

One-year warranty on parts and workmanship

One-year on-site and remote technical support

4. Client Responsibilities

Provide 120V power to display locations (by electrical contractor)

Provide stable internet connection for conferencing functions
